Retired 2010.

Main Goal

While attending the HEA Community meeting in Sterling this fall, I listened to the presentation regarding the “Vote to allow for deregulation from the oversight of the RCA (Regulatory Commission of Alaska), I went away from this meeting “concerned as to the direction and view of the current Board of Directors”. At that time, I made the decision to become involved.

If elected, my main goal will be to maintain quality service at a reasonable and fair price for the consumers by managing costs in both operations and management.
