HEA BOD President (2013-2017)

#### **Work Experience**

Teacher

High School Counselor

School Principal

B&B Owner & Operator

Referee: Hockey & Basketball

#### **Main Goal**

My main goals as an HEA Director:

To continue to work with Management to provide safe, reliable electricity, at a reasonable and affordable rate.

To diligently maintain HEA’s independence from other rail belt utilities.

To continue to work with other rail belt utilities to maximize our common needs in purchasing and selling power.

To continue to work with RCA to seek our fair share of the expenses of transmitting Bradley Lake Power from Homer to Fairbanks.

To return Capital Credits to our members on a yearly basis now that we have been able to build-up our equity since the independent Light start-up.

To continue to emphasize safety and to make sure electricity is as efficient as possible in transmitting it to our HEA members.
